Our portfolio crosses industries and borders.

1

Background

We are an expanding business

We are a proudly South African company leading in service, trading and distribution. Driven by clear values to support our customer's needs, we offer a wealth of knowledge and experience when it comes to complex supply chain projects.

The business was initially built on medical expertise, excellent client service and the pursuit of world class innovation that integrates with the people's needs. We are an expanding business and now a leading supplier of quality and application specific Personal Protective Equipment (PPE) for medical, construction, mining, agriculture and other industries.

Over the years we have evolved into a multi-faceted organization which serves many industries including mining; construction, corporate, digital marketing and consultancy. Through our innovative supply chain solutions, we support complex supply chain projects to transform the lives of people in low- and middle-income countries.

Ecorbit Technologies

We seek to innovate and sometimes challenge thinking

A person in a dark suit and white shirt is holding a silver smartphone. The background is dark. A dark blue overlay is positioned in the upper left quadrant, containing the text 'Time' and 'Ecorbit Technologies'.

Time

Ecorbit Technologies

Mobile business

Time theft costs businesses thousands of Rands each year. This results from employees who “steal” from their employers by wilfully wasting the time for which they are paid. A leading authority on employment issues has conducted numerous surveys relative to time theft and concluded that the average employee “steals” approximately 4.5 hours per week from his employer or nearly six full workweeks per year. You could be losing more than 10% of your payroll.

Mobile Time Card Collection

Time is Money

A mobile tracking and time sheet solution that works from a wireless device. Data is transferred from a field worker's handset to web-based software for real-time backend management capabilities.

Advantages

- Increased worker productivity
- Reduced paperwork and time savings
- Decreases Time-Theft by Employees
- Manage workforce more efficiently
- Streamline Time and Attendance into preferred Accounting and Payroll Systems
- Increase Profits by saving on everyday costs (fuel, administration, overtime, etc.)

Mobile Timecard Collection

Get Started with Timecard and revolutionize your business

- Ability to capture Time, Attendance, Digital Signature, Timesheet information Outside of Cellular Coverage (Store and Forward).
- Individual/Teams/Crew Clock in
- Time Sheet Collection per Account/Job/Location and Activities - including GPS location information
- Clock In and Out Lock - not able to clock in or out of a job location outside a given distance
- Photo Capture at Clock In, Clock out and Breaks
- Employee Timesheet Approval (Digital Signature) of Time worked
- Load thousands of job name and numbers including activities
- Ability to capture Breaks and Meal Periods – with notifications
- Easy to use given four icons on home screen

Notifications and GPS Features

Get Started with Timecard and revolutionize your business

- GPS Tracking: Every 100 Meters, 60 seconds, etc. – Active or Passive
Configurable GPS Settings per field worker and/or team
- Google Enterprise Mapping (Street View, 3D, Satellite) to locate individuals and teams
- GPS Location Tracking (last action, 8 hours, 15 minutes, to last 6 months) – can store data for longer periods if needed
- GPS Report to be alerted when GPS has been turned off on device and Battery Percentage
- Clock In Location Restriction and Location Discrepancy Actions and Reports
- Mileage Travelled and Turn By Turn Directions
- Smart Fences Alerts and Notifications (Idle Time, Outside Area, Speed Trigger, Entering Area etc.)
- Alerts to take breaks, end breaks, meal and rest periods

- Current Global Customer Churn less than 3%.

A group of business professionals in an office setting. In the foreground, a man with a beard and glasses, wearing a white shirt, is pointing with a pen at a computer monitor. The monitor displays a line graph with an upward trend. In the background, another man with a beard, wearing a dark shirt, is looking at the monitor with his hands clasped. A woman is also visible in the background, looking towards the monitor. The scene is brightly lit, suggesting a modern office environment.

Consultancy

Identifying and designing solutions

The true partner of global companies who builds transformational solutions by challenging the boundaries of commercialization strategies to transform lives in low-to-middle income countries.

01

A group of people in a meeting room are high-fiving. The background is a blurred office setting with a window and a sign that says "mashroom".

02

Partnership Approach

We take a consultative partnership approach, working closely with our clients to fully understand their particular business needs. We seek to innovate and sometimes challenge thinking, always with good intent, as our ambition is to add significant value through proposing the appropriate solution.

03 Capacity Development

Capability Development is provided through facilitated, experiential learning programs to build high performing teams.

04 Support strategic decision making

Data Driven Decision-Making

Support strategic decision making, geographical and therapeutic expansion and to consult on systems and business processes that solve our client's problems in Clinical and Medical Affairs.

Analysis through various media

Often referred to as DDDM or information-based decision-making, we group together historical information to analyze trends and make decisions for the future based on what's worked in the past - rather than make decisions based on gut feelings, opinion or experience.

05 Medical Science **Liaison**

Medical Science Liaison (MSL) mapping,
measures & metrics, establishing Medical
Affairs infrastructure and operational
planning
