# Who we are

We are a proudly South African company leading in service, trading and distribution. Driven by clear values to support our customer's needs, we offer a wealth of knowledge and experience when it comes to complex supply chain projects. The business was initially built on medical expertise, excellent client service and the pursuit of world class innovation that integrates with the people's needs.

We are an expanding business and now a leading supplier of quality and application specific Personal Protective Equipment (PPE) for medical, construction, mining, agriculture and other industries. Over the years we have evolved into a multi-faceted organization which serves many industries including mining; construction, corporate, digital marketing and consultancy. Through our innovative supply chain solutions, we support complex supply chain projects to transform the lives of people in low- and middle-income countries.
